Professional Provider Fee Schedule for Drugs and Biologicals

For Dates of Service in 2004

Last revised 6/4/04

The procedure codes and maximum allowances in this document do not necessarily indicate coverage or payment. All coverage and payments are subject to plan benefits, exclusions, limitations, and pre-authorization requirements. Please refer to the Uniform Medical Plan (UMP) *Billing and Administrative Manual for Professional Providers* and *Certificate of Coverage*.

The descriptions for the Current Procedural Terminology (CPT™) and Healthcare Common Procedure Coding System (HCPCS) level II codes listed here are abbreviated. For billing purposes, please use the most recent edition of the CPT™ and HCPCS level II coding books which include complete descriptions of the codes.

Visit the UMP web site at www.ump.hca.wa.gov to download the latest versions of this fee schedule, and all other UMP publications mentioned in this document.

Fees in this publication are subject to change without notice. Although we make every effort to ensure the accuracy of the fees in our publications, changes or corrections may occur throughout the year.

Physicians' Current Procedural Terminology (CPT™) five-digit codes, descriptions, and other data only are copyright 2003 American Medical Association (AMA). All rights reserved. No fee schedules, basic units, relative values, or related listings are included in CPT™. AMA does not directly or indirectly practice medicine or dispense medical services. UMP Professional Provider Fee Schedule for Drugs and Biologicals Introduction

The Uniform Medical Plan (UMP) *Professional Provider Fee Schedule for Drugs and Biologicals* contains the maximum allowances used to reimburse covered drugs and biologicals administered incident to a provider's professional service. Please refer to the *UMP Billing and Administrative Manual for Professional Providers* for billing and payment policy information.

Effective July 1, 2004, the UMP maximum allowances for drugs and biologicals are based on the pricing methodology outlined below.

Pricing Methodology

1. For a single-source drug or biological, the AWP equals the AWP of the single product.
2. For a multi-source drug or biological, the AWP is equal to the lesser of the median AWP of all of the generic forms of the drug or biological or the lowest brand name product AWP. A "brand-name" product is defined as a product that is marketed under a labeled name that is other than the generic chemical name for the drug or biological.
3. The fee schedule maximum allowance is based on the percent AWP indicated in the column titled "UMP AWP % 7/1/04." Most maximum allowances are based on the greater of 88 percent AWP or CMS's 2004 limit for drugs (other than ESRD drugs separately billed by independent ESRD Facilities and drugs infused through DME).

When billing for the drugs and biologicals, providers must follow the descriptions of the procedure codes and include the correct number of units on the claim form for appropriate reimbursement by the UMP. Unclassified or unspecified drug codes should be billed only when there is not a specific code for the drug being administered. The name, manufacturer, strength, dosage, and quantity of the drug must be included with the unclassified or unspecified drug code for coverage and payment consideration.

Note that codes J8499 and J8999 for oral prescription drugs are generally not covered.

The UMP fee schedule uses Current Procedural Terminology (CPT™) and Healthcare Common Procedure Coding System (HCPCS). The descriptions for the CPT™ and HCPCS level II codes listed are abbreviated. For billing purposes, please use the most recent edition of the CPT™ and HCPCS level II coding books, which include complete descriptions of the codes.

Visit the UMP web site at www.ump.hca.wa.gov to download copies of all UMP publications mentioned in this document. If you have any questions, please call (206) 521-2023 (within the Seattle area) or toll free at 1-800-292-8092.
